DETAILED ACTION

1. This action is responsive to communications: RCE filed 01/18/2006 to the original application filed 01/22/2002
2. Claims 1-41 are currently pending in this application. Claims 1, 14, 19, 26, and 33 are independent claims.
3. On 31 March 2006, the Examiner called Applicant's representative, Mr. Robert A. Blaha, to advise Applicant of the foregoing restriction/election requirement. Applicant, however, did not make an election responsive to this telephone call.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13, drawn to recording complier output as well as measurement results, classified in class 702, subclass 108.
 - II. Claims 14-25, drawn to generating statistics regarding a match, classified in class 715, subclass 516.
 - III. Claims 26-41 drawn to navigating between summary information and textual data in a report, classified in class 715, subclass 523.
5. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, invention I has separate utility such as generating a compiler output; invention II has separate utility such as reporting the statistic; and invention III has separate utility such as adding the line of text to summary label to generate a summary line in the report.

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
7. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Maikhanh Nguyen whose telephone number is (571) 272-4093. The examiner can normally be reached on Monday - Friday from 9:00am – 5:30
